Re: Renewal Application for Reissuance of Facility's Open Burning and Open Detonation Permit
Radford Army Ammunition Plant, Radford, VA
EPA ID No. VA1210020730

**Re: Radford Army Ammunition Plant, Radford, VA
EPA ID No. VA1210020730, Extension Request for Renewal Application for
Reissuance of Facility's Open Burning Grounds Permit**

Dear Mr. Stewart:

The DEQ received your request for a 180 day extension request for the Radford Army Ammunition Plant's (RAAP) submission of the renewal application for the Open Burning Grounds (OBG) Permit, dated January 26, 2015, via electronic mail on February 2, 2015. As detailed in your request letter, the extension is being requested to allow for additional time to complete the OBG renewal permit application in order to address issues raised in the Notice of Deficiency (NOD) that are applicable to the OBG as well. While RAAP has requested a 180 day extension for the application deadline, the DEQ has determined that an extension of this length is not warranted at this time based on the justification provided. Instead DEQ is approving a 60 day extension to the OBG permit application deadline and RAAP may request an additional extension if necessary at that time. Your request for an extension has been approved, although only a 60 day extension, and the revised deadline for RAAP's submission of the OBG renewal permit application will now be June 29, 2015, which is a revision from the previously permit call-in date of April 28, 2015. If you have any questions regarding the NOD while preparing your response please contact me at (804) 698-4467 or by e-mail at

Ashby.Scott@deq.virginia.gov.

Sincerely,

Mr. Ashby Scott
